LIGHT UP OUR LEARNING WITH STEAM:

PAPER CIRCUIT ENGINEERING!

WEDNESDAY, MAY 9 AT 3PM

A Mobile Makerspace event sponsored by the Solomon Schechter Day School

For students in grades K — 3!

Learn the basics of paper circuitry while making a custom LED home and a lightsaber!

Learn from Schechter's STEAM Educator, Bobbi Woodbury, an enthusiastic Makerspace educator who loves tinkering and creating things and enjoys fostering a child's naturally inquisitive nature to explore.
