PRESENTS

# Understanding Dyslexia and Other Reading Struggles

Tuesday, October 29th | 7pm  
Noah Webster Library | 20 S Main St, West Hartford,

Parents of struggling readers may wonder if their child's difficulties with reading are the result of dyslexia but might not be sure what to look for, or how the school team identifies and supports students with dyslexia. In this presentation, Migdalia Fletcher, M.S. CCC-SLP and Melissa Caballero will discuss learner characteristics and dyslexia risk indicators, explore the district's dyslexia screening, assessment, and intervention processes, and share practical strategies and resources for parents to support all students who struggle with reading.
