

What **Chair** Would You Be?

Chairs have their own personalities. How would you *design* a chair that *describes* you? Create a unique collage of your favorite chair using mixed media and book text. Van Gogh painted his chair like he painted a portrait, but used ordinary objects instead. His chair was simple, rustic, and modest; the way he saw himself. We will use collage with book text, rubber stamps and stencils. *Open to grades 4-7, registration required.*
